Re: Glendon Avenue - The Glendon / Westwood / Potential Project Parklet

Ms. Ocañas and Glendon Avenue:

I am writing to express my full support for the permanent Parklet application submission by on Glendon Avenue.

I am a business owner who has invested in the area as we love the sense of community with the area and I am also a resident for 6 months of the year.

Our focus has been and will always be about creating and adding to the sense of community within the street and Westwood in general. Our ethos is always to help build and foster the local community and we do this on every site we own. We are not a multinational we are a small boutique company that loves the communities we are in. We firmly believe the parklet with enhance the sense of community within the area to have somewhere that is not owned by any operator but focused on providing a calming place for everyone and the project we help build a sense of community.

We will continually support the site by helping clean and maintain the area to ensure that it is ones that encourages patrons from everywhere. This includes local residents, tourists, UCLA (students, faculty and medical), Ralphs, Pinches, Traders Joes, Jersey Mikes, workers and all establishments in and around the area.

Additional to this roster of maintaining the area, Ministry of Coffee will provide a financial contribution for the build of \$500, provide the plants and shrubbery as well as providing our free services for specific events we will fund like a day or weekend of coffee roasting and tasting day, live music and other additional community lead projects.

We have spoken to many residents, customers, associated retail along the street and literally everybody has been supportive of the project.

We would strongly encourage you to prioritize and approve the application for this project.

Sincerely,

Regards,
